DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 51 and 52 are rejected under 35 U.S.C. 102(b) as being anticipated by Maeda et. al. (US 5,861,729).

Regarding Claim 51, Maeda discloses in Figures 1 and 2, a battery powered handpiece (1) comprising first and second charging contacts (8 and 10) for connection to a battery contained within the handpiece, the charging contacts adapted for contact with a charger device; and (B). a charger device comprising (a) first and second charging pins adapted to (26 and 24) contact charging contacts on the handheld device to charge a battery, of the handpiece; and (b) a sensing pin (28) adapted to contact the handpiece, whereby when current flow is detected by the sensing pin, charging voltage may be disconnected.

Regarding Claim 52, Maeda discloses in Figures 1 and 2, sensing contact for contact with the sensing pin of the charger device.

Allowable Subject Matter

1. Claims 32-50 allowed.

Art Unit: 2838

2. Claims 53 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. The following is an examiner's statement of reasons for allowance:

For Claims 32 and 36: primarily, the prior art of record does not disclose or suggest in the claimed combination: a sensing pin on the housing for detecting at least one of (i) electrolytic current flow through a fluid film on the housing between the first charging pin and the second charging pin;(ii) electrolytic current flow through a fluid film on the housing of a handheld device that is detected by a sensing contact of the handheld device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2838

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
